Senior React Native Developer | TypeScript | Node.js | Express.js | REST APIs | CI/CD | App Store & Play Store Releases

PROFESSIONAL SUMMARY

Senior React Native Developer with 5+ years of experience building, optimizing, and releasing scalable iOS and Android applications for workforce management, healthcare, hospitality, and AI-driven platforms, with backend experience using Node.js and Express.js. Strong in React Native, TypeScript, REST API integration, Redux Toolkit, offline-first architecture, Realm DB, CI/CD, EAS/Fastlane, native SDK integrations, real-time location tracking, biometric authentication, and production release ownership. Delivered mobile apps with 100,000+ downloads, improved app performance by 30%, and reduced build time by 15%.

CORE SKILLS

Mobile: React Native, React Navigation, Expo, EAS Build, Fastlane, Android Studio, Xcode

Languages: TypeScript, JavaScript ES6+, React, HTML, CSS

Backend: Node.js, Express.js, REST API Development, API Integration

State & Data: Redux Toolkit, React Query, Context API, Realm DB, SQLite, MySQL, MongoDB

APIs & Integrations: REST APIs, Push Notifications, Deep Linking, Third-Party SDK Integration, Native SDK Integration

DevOps & Release: CI/CD, GitHub Actions, App Store Connect, Google Play Console, Build Optimization

Testing & Quality: Jest, React Native Testing Library, Unit Testing, Integration Testing, E2E Testing

Tools & Practices: GitHub, GitLab, Azure DevOps, Jira, Agile/Scrum, Code Reviews, Remote Collaboration

PROFESSIONAL EXPERIENCE

Senior Application Developer | Walsons Labs Pvt. Ltd. | Mar 2024 - Present

Chefie AI - AI-powered cooking assistant app | App Store

- Worked on React Native iOS app features for an AI chef experience, including personalized recipe discovery, guided cooking, and user-friendly food planning flows.
- Supported mobile workflows around AI chat, fridge-based recipe suggestions, step-by-step cook mode, shopping lists, recipe collections, and nutrition-focused user journeys.
- Contributed to production readiness for an App Store release by supporting iOS build, testing, release, and post-release quality workflows.

Eleva8 360 - Workforce management app | Google Play, App Store

- Built and enhanced React Native features for attendance, workforce tracking, compliance, and operational visibility across Android and iOS.
- Improved app performance by 30% through UI optimization, API flow improvements, and React Native performance tuning.
- Scaled the mobile application to 100,000+ downloads while improving user experience, stability, and release quality.
- Integrated facial recognition, secure check-in/check-out, and real-time location tracking for field workforce workflows.
- Reduced mobile build time by 15% by improving build configuration and release workflow efficiency.
- Owned production release activities across App Store and Google Play, including build preparation, store submission support, and post-release fixes.

ConvoZone - AI-driven podcast platform

- Developed React Native features for an AI-led podcast experience that converts topics into conversational learning content.
- Collaborated with product managers and team members to convert requirements into deliverable mobile features, review code, and support sprint delivery.

Senior Application Developer | Splice Global Services | Sept 2020 - Feb 2024

Mankind Superman App - Healthcare field-force planning and expense management

- Built mobile workflows for visit planning, doctor and medical representative meetings, expense tracking, and monthly budget management.
- Implemented offline-first functionality using React Native and Realm DB, allowing users to continue working without network connectivity and sync automatically after reconnection.
- Integrated REST APIs, third-party services, Redux-based state management, and role-based mobile workflows for multi-level users.
- Supported CI/CD pipelines, EAS/Fastlane-based build workflows, and production release coordination for Android and iOS.

- Participated in code reviews, pair programming, defect resolution, and performance improvements across production mobile modules.

Simpliv Learning - Online learning and training platform backend | Website

- Worked on backend services using Node.js and Express.js for an online learning platform with course discovery, user access, support, and training workflows.
- Developed and maintained REST APIs supporting web application features, data flow, and integration between frontend screens and backend services.

ME Dubai - Hotel App - Hospitality guest app | Google Play, App Store

- Delivered React Native UI integration, API integration, and production fixes for a hotel guest-experience application.
- Integrated the Assa Abloy SDK to support mobile-based hotel room door unlocking.
- Resolved priority defects and release tasks to support project timelines and production readiness.

Junior Frontend Developer | 200 OK Solutions | Nov 2019 - Aug 2020

- Developed responsive frontend components using React, JavaScript, HTML, and CSS.
- Collaborated with developers and QA teams to implement UI changes, resolve defects, and support feature delivery.

KEY ACHIEVEMENTS

- Received **TechStars 2023** for exceptional work in project deliverables.
- Received **ACE Award 2022** for leadership, teamwork, and timely delivery of complex modules.

EDUCATION

- **Master of Computer Application**, Madhav Institute of Technology and Science, Gwalior - 2019
- **Bachelor of Commerce**, Jiwaji University, Gwalior - 2016
